This is a preliminary DEIS we are reviewing in sections. We are a cooperating agency.

Hi John,

I am confused why we are only reviewing a portion of the DEIS at this time?

We have no further comments on Chapters 1-3 at this time. However, please note that TxDot has not provided any construction method details that could result in direct, indirect, and cumulative impacts to waters of the U.S., including wetlands. I assume construction method details, potential impacts, and proposed mitigation will be provided in subsequent chapters for EPA review?

Thanks,  
Jim Herrington
